There's also some... before the end of the...

**Dr. Corky Willhite** Certainly shade matching is a critical aspect of our freehand bonding. And so one of the things that I found that's very helpful is to have ability to do a customized shade tab. And I wanna be very quick, very, ah, effective. And so, what we're gonna do is, uhm, a technique that I'd started doing quite some time ago and I think you'll it's very helpful in using the Vita Classical Shade Guide arranged by **value. You can see his, ah, brightened up pearly pretty nicely with some bleaching that he's done** with some, ah, home, ah, or over-the-counter, ah, strips. And if I look here on tooth, ah, or the central that we're gonna restore, looks like he's about a B1 shade here but maybe a little brighter than that. So the other shade guides that we have to use are from the Vita 3D shade guide, the OM shades. And if we use the darkest of those, you can see that that's actually a little too bright. So actually in our composite
